

More of Everything

Frankfort

The Frankfort is the perfect plan for the large family. The four bedrooms and separate living spaces provide environments for all activities, from rambunctious family games in the family room to quiet reading in the living room and concentrating on homework in the breakfast area. The utility room can also serve as a convenient mudroom and drop-off point for school bookbags. The large master bedroom has room for a private sitting area, and, at the end of a busy day, the garden tub in the master bath provides a place for quiet relaxation.

1,940 sq. ft.
