

More of Everything

Richmond

The Richmond is a large plan with great flexibility and convenience. The room to the left of the entry could serve as a study or bedroom—the room to the right could be used as a dining room or living room. The kitchen has convenient access to the spacious laundry room and to the outside. The large family room has a dramatic cathedral ceiling, attractive corner fireplace and atrium doors to the outside. All the bedrooms feature large closets—the master suite has two walk-in closets! The master bath offers a garden tub and stand-alone shower as well as separate vanities.

2,359 sq. ft.
