

More of Everything

Plantation I

The Plantation I plan makes a great first impression. It opens to a dramatically spacious great room with high cathedral ceiling and inviting corner fireplace. The large U-shaped kitchen is designed for maximum efficiency; the adjacent utility room provides convenient exterior access (and can serve as a mudroom on rainy days). All the bedrooms feature walk-in closets (the master bedroom has two!) and the master bath also features a garden tub and separate shower.

1,937 sq. ft.

Photos may include optional features.
