## Camelot

The Camelot is the plan for the larger family. It has plenty of storage space (note the glamour bath with two walk-in closets in the master bedroom and all the closet space in the other bedrooms) the large, open kitchen and breakfast area promote casual dining. Bedrooms three & four share their own private bathroom. The large family room has a central fireplace and cathedral ceiling and the separate (dining, living or study) room is ideal for more formal entertaining (or concentrating on homework).

2,228 sq. ft.
